

Write a Java program to:

1. Create a **Vector** of integers
2. Add 5 elements to the vector
3. Insert an element at index 2 (**Given as 5th input**)
4. Remove an element by value (Given as 6th input)
5. Display all elements using **Enumeration**

For example:

Input	Result
1	[1,2,7,3,5]
2	
3	
4	
5	
7	
4	

Answer: (penalty regime: 0 %)

Language

```
1 import java.util.*;
2
3
4 public class Demo{
5     public static void main(String[]args){
6
7         Scanner sc = new Scanner(System.in);
8
9         Vector<Integer> v = new Vector<>();
10
11         for(int i =0;i<5;i++){
12             v.add(sc.nextInt());
13         }
14         int insertElement = sc.nextInt();
15         v.add(2,insertElement);
16
17         int removeElement = sc.nextInt();
18         v.remove(Integer.valueOf(removeElement));
19
20         Enumeration<Integer> e = v.elements();
21
22         System.out.print("[");
23         while(e.hasMoreElements()){
24             System.out.print(e.nextElement()+"");
25             if(e.hasMoreElements()){
26                 System.out.print(",");
27             }
28         }
29         System.out.print("]");
30
31     }
32 }
```

	Input	Expected	Got	
✓	1	[1,2,7,3,5]	[1,2,7,3,5]	✓
	2			
	3			
	4			
	5			
	7			
	4

Correct

Marks for this submission: 10/10.

Write a Java program to use Vector and find the sum of even numbers in a given set of numbers

For example:

Input	Result
4	Sum of even numbers: 2
5	
3	
2	
7	
7	

Answer: (penalty regime: 0 %)

Language

Reset answer

```
1 import java.util.*;
2
3 public class SumEvenVector {
4     public static void main(String[] args) {
5         Scanner sc = new Scanner(System.in);
6         int n = sc.nextInt();
7         // Create Vector
8         Vector<Integer> v = new Vector<>();
9
10        // Add elements
11        for(int i=0;i<n;++i)
12            v.add(sc.nextInt());
13
14        int sum = 0;
15        for(int num:v){
16            if(num%2==0){
17                sum+=num;
18            }
19        }
20
21        // Traverse Vector and sum even numbers
22
23        // Type code here..
24
25        // Print result
26        System.out.println("Sum of even numbers: " + sum);
27    }
28 }
29
```

	Input	Expected	Got	
✓	4 5 3 2 7	Sum of even numbers: 2	Sum of even numbers: 2	✓
✓	7 3 2 7 8 9 6 5 4	Sum of even numbers: 16	Sum of even numbers: 16	✓
